Enjoyed it as well. Thanks all.

FYI, I just posted the "flow chart from Hell" along with a couple more on our blog:

Post also at <http://blogs.edf.org/health/> If you would like to opt out of receiving these emails, please [click here](#).

Understanding basic process flows under the new TSCA

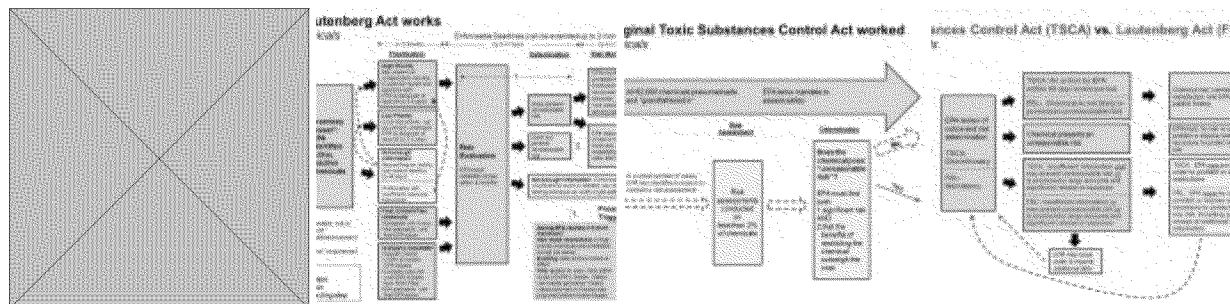

By [RICHARD DENISON](#) | [BIO](#) | Published: JUNE 28, 2016

Richard Denison, Ph.D., is a Lead Senior Scientist.

As an additional resource for people delving into the new [Lautenberg Act](#) that was signed by President Obama last week, I have developed some flow charts depicting the basic processes applicable to existing chemicals already in commerce and new chemicals prior to market entry.

Comparisons are shown between the processes under the old and new laws.

A PDF version is [available here](#); or click on the thumbnails below.

Indeed! What a privilege.

Tiffany and I here are going to attempt a preemption flow chart. More to come.

I'm sure we'll make the BNA.

Subject: "FINAL" UPDATED SLIDE DECK -- June 28th ABA Session on TSCA Amendments

All –

I am looking forward to seeing you all in person tomorrow. Remember, so you have time to get through security and to get situated for the event, please arrive not later than 11:45 at our offices at 601 Massachusetts Avenue. The event is on the 11th floor in our conference center. You might be sent by security to 10th floor to check in.

Please be sure to pick up your name tag on the way in.

Attached is the final slide deck. Files sizes and technical barriers have prompted me to decide that, rather than circulating pdf copies of the various background resources, to instead include a set of links in the PPT deck as the final slide. Please feel free to send to me by 2 pm today any additional links. However, to avoid “overkill”, and the appearance of providing more or fewer links to any single organization or Firm, I must limit any single organization represented to just one linked resource. The links I have selected are intended, however, to allow the user to navigate to additional items you might have posted on the site proved. Thus, the EPA Q&A page, allows visitors to access other related materials.

Thanks again.

Please contact me today with any last minute questions. I will be sending the slide deck to the ABA at 2pm.

Larry
